THE STARS

BY GEORGE D. PRESTICE.

Those burning stars! what are they?

That has were blossoms on the Tree of Life.
Or glory flung back from the outspread wings
Of God's Archangel—or that you blue ekies.

With all their gorgeous blazoury of gents, Were a bright banner waving o'er the earth

From the fair wall of heaven!—and I have sat And drank their sushing glory, till I felt Their flush electric trembling with the deep And strong vibration down the living wire

Was beating high as if a spring were there.
To busy me up, where I might ever roam.
'Mid the unfathomed vastness of the sky.
And dwell with thuse high stars, and see the light

Pouring down upon the blessed earth, like dew From the bright urns of Naiads!

What are ye? There is in my heart of hearts A fount, that heaves beneath you, like the Dec

Beneath the glories of a midnight mon! And list-your Enden tones are floating now

Anound me like an element—so low.

So wildly beautiful, I almost dream
That ye are there, the living harp of God,
O'er which the incense winds of Eden stray,
And wake such tones of mystic minstrelsy

As well might wander down to the dim world To fashion dreams of heaven! Peal on - year or

Nature's high anthem!—for my life has caught A portion of your purity and power,

And seems but as a sweet and plorious tone

Blessed, blessed things! Ye are in Heaven I on Earth. My soul

To den its new-caught glories in the dust! The earth is beautiful—I love

Like a lost infant gazing on its home-

Even with the whiriwind's rush, can wander of To your immortal realms, but it must fall, Like your own aucient Pleiad from its height,

Its wildernass of spring flowers, its bright clouds.
The majesty of mountains, and the dread
Magnificence of Ocean—for they come
Like visions to my heart—but when I look

And weep to die, and come where you repose

Upon you boundless heaven, like parted souls On an eternity of blessedness.

Miscellaneons.

Solomon's Temple.

fear of them no person dared to be guilty of

Beautiful stars!

It chainless passion -and my every pulse.

FREMONT, SANDUSKY COUNTY, SEPTEMBER 3, 1853.

THE PESTILENCE AT NEW OR-HORRIBLE DOINGS AMONG THE DEAD Interesting Detnils.

[From the N. O. Crescent of the 11th.] DOWN AMONG THE DEAD MEN.

To verify the many horrible reports of the long processions, tramping to the solemn music of funeral marches. In the countenances of pludding passengers were the lines of anxiety oud grief, and many a door was festooned with black and white hangings, the voicek sa witnesses of wailing and of serrow. On the one hand slowly swept the long corteges of the wealthy, nodding with plames, and drawn by prancing horses, rejoicing in their funeral vanities; on another, the hearse of the citizen soldier, proceeded by measured music, envelagain the pauper was trundled along to his long home on a ricketty cart, with a boy for night draws the curtain. a driver, who whistled as he went, and swore a careless oath as he urged his mule or spayened horse to a trot, making hast with anoth-

was all cloudless, sunshine, but little in keeping with the black melancholy that eaveloped all below. Out along the highways that lead to the cities of the dead and still the tramp of funerals knew no cessation—Up disease, which was taken off several hun-rolled the volumes of dust from the busy dred of our citizens weekly, was an epidemic.

King Solomon, which, if the details are cor-fene maledictions and of riotous mirth, the rectly given, undoubtedly surpasses any spe-clang of whip thongs and the rattle of wheels. cimen of mechanism produced in modern At the gates, the winds brought intimation gard t as a large figure to fix the unacclimatimes, notwithstanding the wonderful inven- of the corruption working within. Not a puff ted at 30,000 at the breaking out of the fetions which have taken place in every branch of science:

The sides of it were of pure gold, the feet by fifties, exposed to the heat of the sun, adds two hundred more to the ghastly recof emerald rubies, intermixed with pearls, swollen with corruption, bursting their coffin ord, each of which was as big as the ostrich egg. lids, and sundering, as if by physical effort, The throne had seven steps: on each side the ligaments that bound their hands and were delineated orchards full of trees, the feet, and extending their rigid limbs in every f cast gold. the "King of Terrors" held his Saturanalia, The nature of this throne was such, that with a crowd of stolid laborers, who, as they al business intrasted to their care in Saudusky and when Solomon placed his fact on the first step tumbled the dead into ditches, knocked them

To be sure he can get books painted mitted to be shipped without their knowledge. upon his library shelves, or order any num. The party that that guilty of this offence, is ber of gilt bindings, but if he never enjoys within them the "tenst of reason and the flow of soul," they are only scorners of his ignorance. If he gazes only with the eye of a close to the Steamer just before the fire broke speculator on the gently flowing river that ont, with a light in his hand. If the fire was meanders along its banks, and vainly wishes the handiwork of any incendiary, it is to hoped that he will be found out. The fire was pretty well extinguished on

the following morning, by the rising of the

From Califo raia.

By the Nicaragua line we have received the Daily Placer Times and Transcript, of Sun Francisco, of August 1st, in advance of the Thanks to somebody for their kindness sending us the papers. By them we learn that the advanced companies of emigrants were arriving in California, the short trips avgrageing about 70 days from St. Joseph. The emigration by land to Unlifornia, is less than it up a store of intellectual love, let him stick to the day-book, and sit of evenings at the door the crowded sity, watching the passers by and 10,000 to Oregon. This year about 40. 000 go to California, and over 20,000 to

> Thirty-eight thousand letters and twelve thousand papers were mailed at San Francisco for the steamer of August 1st. This is doing a heavy business. U. C. Hongs, Esq., of Nevada, is the Cal-

fornia Commissioner to the World's Fair, at New York A large cave has been discovered between

clumbia and wood's Creek, in Tuolumne ounty, in which numerous bones of an antedeluvean race of animals, apparantly of the nastodon species, have been found. It is atracting much attention. Senator Gwin left Fort Miller, Muriposa

county, on the 21st July, to explore the route for a railroad on the southern line, and was to extend his explorations to the Tejon Pass. He was accompanied by Capt. JORDAN, Lieut. NUGENT, Capt. HALER, Mr. RUBIDEAN, of New Mexico, and Messis. Kingsbuay and Ross Senator Gwin expects a road can be built from the canon of the Colorado, down the San loaquin Valley with less expense in grades. embankments and bridges than in any other route that can be found. His personal exploration will be valuable for his action in the

to do it. The Nicaragua line has become important to the business interest of the Pacific.

Judge! you say if I punch a man, even in ble. New mines are discovered, and the average success in the old ones is about the came us hertofore. Wages had increased considerably in San Francisco, and many hands had re-turned there from the mines, finding that they could earn more than they could get digging.—O. S. Journal.
